

SO-KO MONOCHROME RIBBON

Ideal for Bank and Payment Cards

The Evolis High Trust® SO-KO ribbon is the perfect fit for banking applications where preprinted cards are personalized. The SO-KO monochrome ribbon consists of a silver matt resin (S) panel and a black resin (K) panel which are both followed by a protective overlay (O) panel.

Whole panels (length: 98 mm / 3.86")

ADVANTAGES

The silver matt panel offers top-notch printing quality of characters and graphics on the dark card front side, while the black panel makes it possible to print specific banking characters such as the CVV number on the signature panel at the card back. Both overlay varnish panels offer an additional protection of the printing for a better card durability.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

GENERAL SPECIFICATIONS

- For dual-sided printing
- Ribbon in PET with thin layer of specialized coatings
- 4 whole panels Silver, Overlay, Black, Overlay 98 mm (3.86") length
- Overlay thickness: 1.1 microns
- Compatible with PVC or composite cards
